article-ID 36591

Content

Needed Hardware/ Software	01
Update Preparation	01
Update Procedure Audi	02
Update Procedure VW, Skoda, Mercedes	04

Needed Hardware/ Software

- Bluetooth Notebook (Bluetooth Adapter)
- Bluetooth Mobile Phone
- Compatibel with:
Windows Vista, XP
- Data compression program:
WinZip

Note: As soon as the update is started, it may not be interrupted under any circumstances. This leads to damages of the FISCON software.

Update Preparation

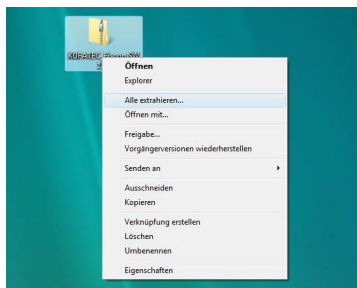

Fig 1

Step 1: Extract

Download the latest firmware update from the Kufatec web-site and extract it to a folder on your notebook using WinZip (Fig 1).

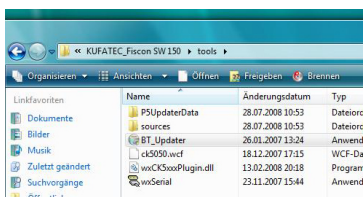

Fig 2

Step 2: Software Installation

After the file as been extracted launch the “BT_Updater” program (Fig 2).

Follow the Installation Wizard (Fig 3).

Select a path for the software to be installed in (Fig 4).

After successful installation close the Installation Wizard (Fig 5).

Fig 3

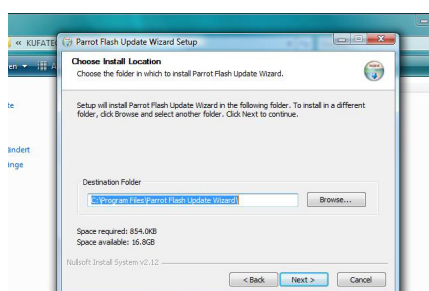

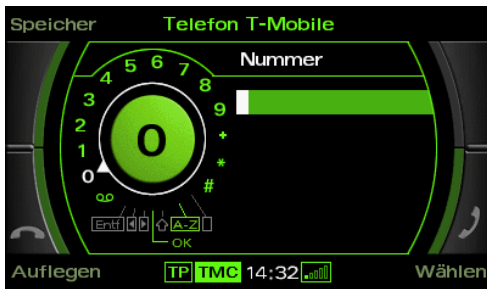

Fig 4

Fig 5

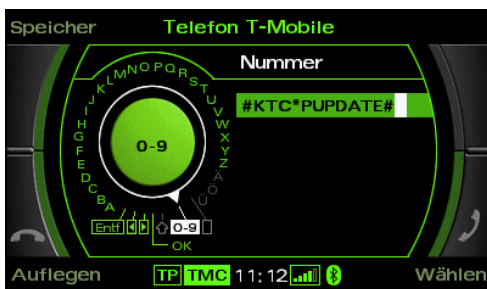

Update Procedure Audi

Step 3: Bluetooth Connection

Establish a Bluetooth connection between your telephone and the FISCON unit (Fig 5).

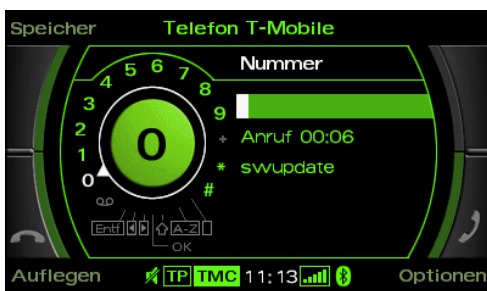

Fig 5

Step 4: Change to the Update Mode

Turn the dial and spell out the following text: **#KTC*PUPDATE#** or **#582*7873283#** and then hit the Select key (Fig 6).

Fig 6

As soon as the **Select** key has been pressed the FISCON unit will be in Update mode (Fig 7).

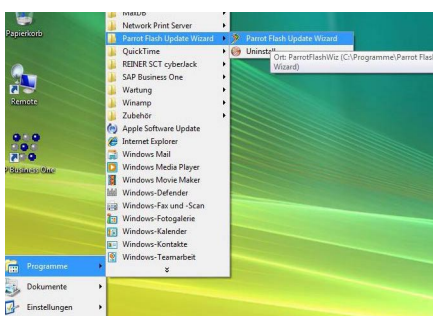

Fig 7

You will additionally see this in the FIS display

Fig 8

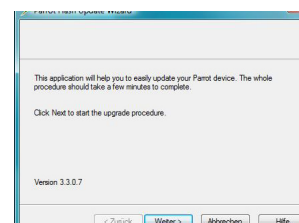

The connection between your mobile telephone and the FISCON will separate automatically when finished. All of your previous profiles will be lost upon completion.

Step 5: Update Software

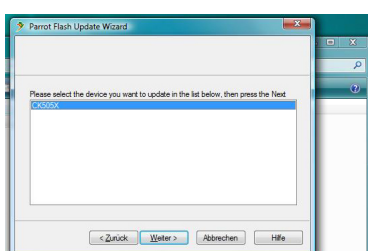

Select **"Parrot Flash Update Wizard"** from the start menu (Fig 9).

Fig 9

Select **"Next"**

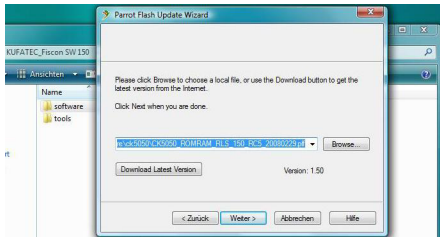

Fig 10

Select **CK505X** and then hit **"Next"** (Fig 11).

Fig 11

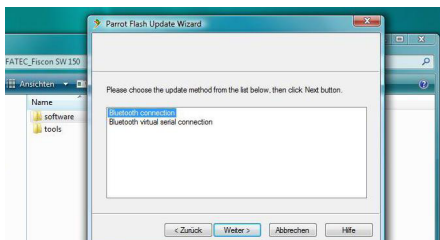

Update Procedure Audi

Step 6: Update Version

Select **“Browse”** and select the navigate to where you have the firm-ware update stored (Fig 12).

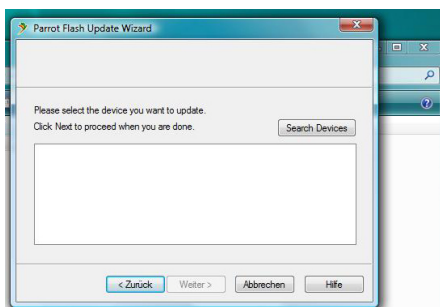

Fig 12

Step 7: Bluetooth Connection

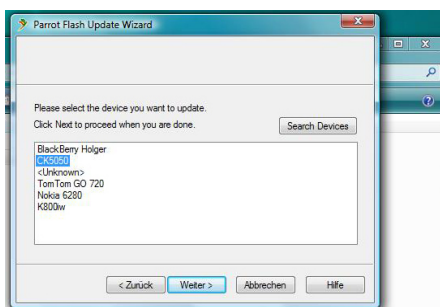

Select the Update method **“Bluetooth Connection”** (Fig 13) and then select **“Next”**.

Fig 13

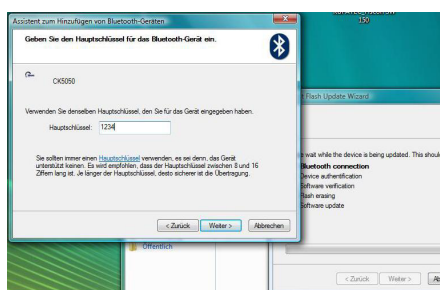

Select **“Search Devices”** (Fig 14).

Fig 14

Select the **“CK5050”** and then select **“Next”** (Fig 15).

Fig 15

Step 8: Software Update

Type in **“1234”** and the update process will begin (Fig 16).

Fig 16

Update Procedure Audi

Please wait for the installation to finish (Fig 17). When the software installation is finished please select **“Finished”** (Fig 18).

Fig 17

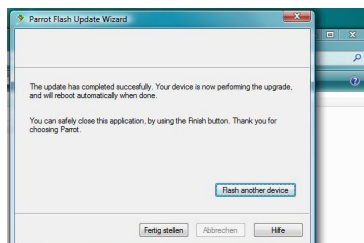

Fig 18

After completion of the update the FISCON software is automatically re-started. Your navigation screen will look like Fig. 19 on the telephone page. As soon as the bluetooth connection has been established, the FISCON unit is ready for use.

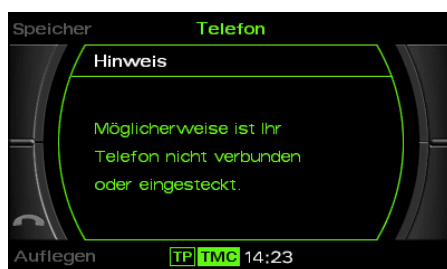

Fig 19

Update Procedure VW, Skoda, Mercedes

Update preparation (Step 1, 2) as well as update procedure (Step 3-8) has to be done by the same way like FISCON Audi version.

Select **SW-Update** as follows:
